## SUBJECT

### LETTER OF SUPPORT FOR THE BIOLOGER PROJECT

Name of the organization: Association Hyla  
Address: Lipovac I. no.7, 10000 Zagreb, Croatia  
Organization registration number: 97526280302  
Tax identification number: HR97526280302

In accordance with the business politics, our mission to be active in the field of natural science research and education for the purpose of evaluation, protection and conservation of nature and environment and our goals to promote and develop scientific and technical research of biodiversity and geodiversity of Croatia and the world, to evaluate and protect the diversity of species and habitats, to encourage public interest, raise public awareness and education about biodiversity, geodiversity, endangered species and habitats, protection of nature and the environment, protection of geological heritage and the promotion of biology as a science and also encourage and enhance educational and research activities of the civil society and sectorial, cross-sectorial and international cooperation in the protection of nature and the environment we decided to give support to the Biologer project.

Having in mind that Biologer platform is an internet data base which is rised using free software, free data, willing work of Biologer community and members of the Project team, we want to support further development of the Biologer project. We are willing to offer our resources (technical, personnel, organizational), in the range of our abilities, contribute toward accomplishment of mission, vision, and specific goals and activities planned by the Biologer project. We will promote and work on the country level by providing technical support and personnel but also try to include other interested parties for the project in Croatia. We will actively work on finding the additional funds for spreading the Biologer platform in the SEE region and on the further development of the Biologer platform.
